

Y-HEP Presentations

Reasons to have a Youth Workshop:

- Young people ages 13-19 are an increasing percentage of those identified as living with HIV.
- Youth can use information from the workshop to make healthier decisions in the future.
- You want to provide them with information to keep them safer and away from the risk of infection.
- Presentations can be tailored to the specific needs of your school, agency, youth group, or religious organization.

Participants will be able to:

- Understand how HIV/AIDS is transmitted and learn how to prevent transmission.
- Separate the myths from the facts.
- Discuss healthy relationships and become empowered to make good decisions.
- Consider the complex social, economic, and political issues contributing to the spread of HIV
- Learn how to get involved with the **4th Annual Youth Outreach, Educational, and Empowerment Summit on June 26.**

For more information, to set up a workshop, or receive materials about the Youth Summit, please contact Tiffany Thompson at 215-564-6388 x322 or tthompson@fight.org
